

Jose Gale, Full Stack Developer

Dublin, Ireland, +353 83 209 4639, josedavidgale@gmail.com, github: [JdgaleTorre](#), web: josegale.com

Summary: I'm a developer who prefers web development; I've been working since 2009. In those years, I collaborated with various teams and led teams as a Scrum Master. I'm someone who likes to be solving problems and is service-oriented. I want to learn about a new culture and be part of a team with excellent communication skills. I'm fast-paced, creative, and flexible, always open to suggestions and looking to improve myself. In 2018 I got a NanoDegree from Udacity, on Front End Developer. I'm looking forward to working together.

Employment History:

Feb 2022 - Present - **Move to Ireland**

Apr 2021 - Jan 2022 - **Full Stack Developer at Code Exitos.**

- **Jobbox** application to list or rent construction equipment with more than 1k+ users. With an increase of more than 200 users. We improved the user experience of the rental process. I created the return process and review process.
