ABOUT ME

I'm a developer from Honduras, I've been working since 2011 as a developer for a pharmacy with an in-house Point of Sales, in these years I helped improving the POS, implementing new technologies and third-party functionality, like integrating direct payment with PinPAD. I have a background in C#, API rest, Graphql, SQL, NoSql, Scrum. In 2018 I got a NanoDegree from Udacity, on Front End Developer. I'm looking forward to working together.
